A Diligent and excellent team player with a solution-driven mindset, having quick learning ability. Bringing forth a motivated attitude and a variety of power skills.

PROJECTS

Auctomatic - Online Auction ⌨ 🌐

Automated auction system is an online auction system, where buyer can buy the product and seller can sell the product.

Features:
- User Sign-In & Sign-Up Pages
- Admin Sign-In
- Register Buyers & Sellers
- Add Products to auction
- Purchase Products
- View detailed reports of buyers, sellers, products & sales

Tech Stack: Java | MySQL | STS

Areas of responsibility:
- Designed and managed the database schema for the project to ensure optimal performance and data integrity.
- Completed the project in just 5 days, taking a pragmatic approach to development and delivering a fully functional system that met the client's requirements.

This project was individually built by me in a span of 5 days.

AJIO Clone ⌨ 🌐

An E-commerce website that sells clothing and accessories apparel.

Features:
- User Sign-In & Sign-Up popup model
- All the Sorting & Filters functionalities
- Add to Cart page & Wishlist page
- Includes all types of validations
- Deployed on Netlify

Tech Stack: HTML | CSS | JavaScript | Bootstrap | Material UI icons

Areas of responsibility:
- Lead the team
- Built all of the product listing pages
- Laid out the database schema
- Created the filters and sorting functionalities

This project was collaboratively built by a team of 5 developers and executed in a span of 5 days.
